## CREW AFTER-SCHOOL PROGRAM

At The Child Development Center we've named our after-school programs CREW to match our vision for the valuable teaching arena that exists at the conclusion of each school day. CREW is designed to offer a safe and fun enrichment program where kids stay active, learn essential life skills and build a sense of community.

### CHARACTER

Teachers serve as mentors to build confidence, responsibility and instill important moral and ethical values.

### RESPECT

Respect yourself, your peers, your teachers and your school.

### EMPOWERMENT

Students have a voice and ownership of their after-school experience.

### WONDER

Have a great attitude and open mind, try new things and let your imagination soar.

## CREW ACTIVITIES

### SNACK AND ROLL CALL

The Child Development Center takes attendance and provides a healthy, allergen free snack every day.

### HOMEWORK TIME

Students receive a minimum of half an hour of homework time Monday - Thursday. We aim to help students develop positive study habits to further their success in the classroom.

### OUTSIDE TIME

Time outside to run and play is a focal point of our after-school day. Teachers actively supervise free play as well as facilitate games that emphasize teamwork and sportsmanship.

### CLUBS

Our teachers lead engaging activities that allow students to both explore new talents and build on known skills. Club activities include sports, arts and crafts, painting, science and engineering, gym games, sewing and cooking.

### CREW PROJECTS AND PRODUCTIONS

We partner with non-profit organizations – such as Carrying Hope, Partnerships for Children, and Austin Pets Alive– to create significant learning opportunities for our students. Students have organized community outreach programs that include bake sales, coin drives, art auctions, craft projects and donation drives. Other student driven projects include theatre and film productions, music videos, seasonal carnivals and sporting events.
